

## Till We Die

From Our Hands

Easy brother  
I would do the same again  
We won't be hesitating  
We won't be hesitating  
Call me liar  
But I stand for the same old plan  
We won't be hesitating  
We won't be hesitating  
Call me call me liar

We're getting older, getting tired  
We keep our strength deep inside  
You've got to see, the fire in our chests  
When times are rough it's getting hard  
No, we won't fall apart  
So keep on mind  
We will play punkrock till we die

Society can take your time  
They want to control  
They couldn't take what's deep inside  
In your heart and soul  
Embrace the pride, raise your head  
and your eyes up high  
We salute to all of them  
Dead and gone in time  
No, we will never surrender  
We take control

We're getting older, getting tired...

We're getting older, getting tired  
We keep our strength deep inside  
You've got to see, the fire in our chests

We're getting older, getting tired  
We keep our strength deep inside  
You've got to see, the fire in our chests  
When times are rough it's getting hard  
No, we won't fall apart  
So keep on mind  
We'll be the same until we die

Till we die
