

One of us is waiting, one side of us waiting  
Some of us are striving, somewhere on the mountain

One part of us keeps giving away, keeps giving away, giving away...

And disorder must come  
And disorder must reign  
Every minute will count  
When disorder is king

One of us is waiting, one more number's waiting  
Where's your revolution plan?  
Where's your need to make a stand  
To finalize, to synchronize?

One stand, one stand together  
One stand, one stand to hang the standard high  
The standard high  
Where's your revolution plan?  
Where's your need to understand  
To find more time, to find more time?

One of us is waiting, one side of us is waiting  
Where's your revolution plan?  
Where's the leading upper hand  
To guide your life, to guide your life  
One stand, one stand together  
One stand, one stand to hang the standard high  
The standard high
