

Mental wires are sucking our bones
See how tha insect hooks
Towers open fire
Burning the records
Please enter the garden
The green garden of delights
No more trouble
No more answers
No mer songs of joy
The sugeon plies the steel
If we do well, we shall
Drink the juice and eat the pill
From red insects we dissect
From dark ah ah we reject
Descend lower, descend slowly
Find your own conception
Descend lower, descend slowly
Find your knife construction
Mental wires we must freeze
Lethal fires burn our knees
