

Take One (Live)

Front 242

This is our last order
This is our last order
Last order to dance

If you're...
This is another curve
In human history
This is another curve
I taste your divine body

Science of the signs
Signs of the science

I feel it in the air
And deep inside of me
I feel it everywhere
We'll grow eternally
Within S.S.S.S. science
Give me!...

One day the moon will fall
One day the grounds will sway
This may be the last call
Of a lost world anyway

Fire!
Heat!
Power!
Time is up!
This is our last order
Last order to dance

This is another world
That smells organic life
This is another world
Like the edge of a knife

One day the moon will fall
One day the grounds will sway

Take One!
