

It's Good to Be in Love

Frou Frou

I don't know where to start
Say I'm tired or throw a party
These cucumber eyes are lying the more that i smile about it
And all of my clothes feel like somebody's old throwaways
I don't like it

It's good to be in love
It really does suit you
Just like everything
I'm happy you're in love
'Cause every color goes where you do

I'm adoring you
It's all good
You're so beautiful
I'm black and blue all over
You're breaking my flow
How could you know what I'm saying about it
When all of my clothes feel like somebody's old throwaways
I don't like it

It's good to be in love
It really does suit you
Just like everything
I'm happy you're in love
'Cause every color goes where you do

I feel so powerless
I've got to stop it somehow
Oh come on what can i do?
Why's it happening
How's it happening without me
Why's it happening
How's it happening that he feels it without me

It's good to be in love
It really does suit you
Just like everything
I'm happy you're in love
'Cause every color goes where you do
