

Through the Gates of Hate

Frozen Dawn

Eternal darkness, endless pain and evil anger
Surrounding the deep of an abyssal void
Flowing around cold edges
Like a frozen enraged beast

Black tombs
Unholy thunders
Never ending pain
Creeping death
Through the gates of hate

Cold breaths
Freezing chills
Agony laments
Funeral chants
Through the gates of hate

Lament of infernal agony
Of an unborn frozen child
Crucified by its own sins
Engraved into eternal ice

Through the gates of hate, I see

Whispering dreams of death and destruction
Frozen lakes of unholy blood
Burning black flames of the nameless
Freezing the life's flow

Black tombs
Unholy thunders
Never ending pain
Creeping death
Through the gates of hate

Dark illusions
Goat lords
Burning flesh
Twisted minds
Through the gates of hate
