

Traveler's Song

Fruit Bats

Out in the world when your
Only friend is a traveler's song
When your time and your money
And your best girl are gone

You can't go back if
The road keeps moving along
Can't go back if
The road keeps moving along

'Cause someday a tremor'll pull
Your cities into the sea
You can't win a battle a fight
With the forces of gravity

You can't stand up
If gravities draggin' ya down
Can't stand up
If gravities draggin' ya down

Down in the trench when you
Find yourself in the tiger's jaws
And the fire in your belly
And piss and vinegars gone

God's no better than you
Just bigger is all
God's no better than me
Just bigger is all
God's no better than us
Just bigger is all
