

Union Blanket

Fruit Bats

Weathered and worn
All your sheep have been shorn
Mistaken for love
Take your mountain down
All the rivers have spilled
All the horses been killed

Pepper the earth
Put your foot in the dirt
Where the willows all weep
Take your mountain down
All the rivers have spilled
All the horses been killed

Except the salt from the lake
All the angels and snakes
Inherit the earth
Take your mountain down
All the rivers have spilled
All the horses been killed

Weathered and worn
Union blanket is torn
Antiquing for love
Take your mountain down
All the rivers have spilled
All the horses been killed
