Cyclone Launch

Fu Manchu

Left in the dust to sit down
How do you i get this heap out of here
A sharp cut on a dust row
I'm looking down it's now quite clear

Overloadin
A full hand
Wire-fry a belt blown drive
Haymaker a quick turn
Holy-roller say goodbye

I knew you'd seen it my way Ain't got anymore today

Forever gone is a skyride Circle the world. it's a long time Eliminate all highway I got me a course in mind

Burn like a mule throw Watch a nova come alive Sun burnin' a hole down Hand movin' sink with time

I knew you'd seen it my way Ain't got anymore today
