

## Grendel Snowman

Fu Manchu

Casts his shadow miles across the sun  
Keepin' them in sight when they run  
All of a sudden we hear the 4 send  
Trackin' 50 feet above my head  
Like we seen it so, there it goes  
Like we seen it so, there it goes  
Beam in grip, for years  
Never found, we here  
Taking giant strides upright  
No remains, they die  
Like we seen it so, there it goes  
Like we seen it so, there it goes  
Un, iden, ti, fied  
Un, iden, ti, fied  
Un, iden, ti, fied
