

Hang On

Fu Manchu

Well I have seen your face
I heard you call my name
I know it's hard to believe
Just wait until you see
Well I send you right back
I know what you're talking about
Identical marks with me
We follow them all the way

I hang on
We've been moving for so long

So after we refuel
Chase just like you do
So many towns we pass
Destination here at last

I hang on
We've been moving for so long

Back and forth again
Seamless signs from wind
Steel hot on our trail
Tried to outrun but failed

I hang on
We've been moving for so long
