

Mega-Bumpers

Fu Manchu

Oh mona sue what can you do?
Sharin it around
Swingin like issac from a ship to shore
Ladies coming down
Way more than I've ever seen
You know what I mean?
More than a pound to go around
Bringin them to their knees

Over my head through my back
Five car lengths is where your at

Throwin snake eyes from a hand in the back
White knucklin round
Captain lightfoot dancin up a storm
Coming back for more
Bobby drivin a round a round
A race is going down
Sudden flash across the night
Outta sight

Over my head through my back
Five car lengths is where your at

Hittin the road I see you all the way back
Hey I seen you around
Shiny blue camaro sitting in my path
Chumps going down
