

# The Falcon Has Landed

Fu Manchu

Well I dropped twenty-five  
And I lost mine  
Countin' down or head straight to the sky  
I seen-side  
There in no time  
Soarin'-high  
A star shoutin' nine  
The falcon has landed...it's shinin' and sanded  
The falcon, it's grounded...that right where...I found it.  
The first of its kind  
In our space and time  
Waitin' out side  
The second ride  
I see inside  
There in no time  
Soarin'-high  
A star shoutin' nine  
The falcon has landed..it's shinin' and sanded  
The falcon, it's grounded...that right where..I found it  
On a hell bent journey to the center of the earth (the earth th  
e earth the earth)  
Twin can freaks, payin' what it's worth (its worth its worth it  
s worth)  
Haulin' and crawlin, changers on it's way (its way its way its  
way)  
Mars attack risin', now it's too late (too late too late too la  
te)  
Well I dropped twenty-five  
And I lost mine  
Countin' down-headin' straight to the sky  
I seen inside  
There in no time  
Soarin'-high  
A star shoutin' nine
