

Weird Beard

Fu Manchu

Hundreds - thousands - millions
Will appear
He struggles to signal
So says the weird beard

And he rides around
For a chance to see it all
Uncertain and unknowing
We're sure he will fall

So he quickly takes the high road to where is not know
He will return
Down a slide to his throne

And he says - he says
Weird beard

5 mile - 6 mile - 7 mile
Wide
As he sped toward the mountain
An easy place to hide
