

## Days With You

Fuel

Rain falls down like you alibi  
Thought you held the stars in the sky  
Till I found your love  
Was a lie  
And I lost the life  
And the days with you my love  
All your lines I cannot erase  
Pull your fingers from around my brain  
But you put this hate  
In my eyes  
But I love the scars  
From the days with you my love
