

Falls on Me

Fuel

1. I've seen you hanging round
This darkness where I'm bound
And this black hole I've dug for me
And silently within
With hands touching skin
The shock breaks my disease
And I can breathe

R: And all of your weight
All you dream
Falls on me it falls on me
And your beautiful sky
The light you bring
Falls on me it falls on me

2. Your faith like the pain
Draws me in again
She washes all my wounds for me
The darkness in my veins
I never could explain
And I wonder if you ever see
Will you still believe?

R:

Am I that strong
To carry on?
I might change your life
I might save my world
Could you save me Ahhhhhh

And all of your weight
All you dream
Falls on me it falls on me
And your beautiful sky
The light you bring
Falls on me it falls on me (2x)
