

Getting Thru?

Fuel

I gave you all all my soul
You gave it all away
You tried so hard tried to blame
But there's no more words to say
Got no alibi
Now you're out of lies

Am I getting through to you
How much more should I define
Nevermore to be your fool
Am I getting through to you

I tried so hard to shake it off
You threw it in my face
Under your skin your wicked ways
The sweetness I can't taste
And all that you provide
All that you disguise

Am I getting through to you
How much more should I define
Nevermore to be your fool
Am I getting through to you

But if you call you know I'll be there
Tripping on your wires
And fall right back into hands

Am I getting through to you
How much more should I define
Nevermore to be your fool
Am I getting through to you
