In your memory not so gentle
Perversify slash sentimental
Caught between and caught without
I'm a failure not your failure now

In and out just like a knife would tax the flesh and leave a cheap wound

Fucked and fucking love and lay Congenitally fractured anyway

Unclipped unclean this forensic scene's all played out

The defense rests and sorry's just a no shit sherlock mouth tal $k\ \text{con job}$

From your memory to this instant worked so hard for working distance

Like a mouth too late to shut

I'm a failure not your failure now
