

# Walken's Syndrome

Fugazi

Fragile stem  
Asleep at the stoplight again  
Red dressed in red drenched in red spreading red ever red

Fragile stem  
Veering for control again  
Change lanes explain how strain defers the impact of speed  
On on past gone gone gone past on

Fragile stem  
Made your own road again  
Scars crash and glass made  
You laugh you'd show it off to your friends

Fragile stem  
Lay down your arms and then  
Steer into the headlights like the dead light of the last sun y  
ou'll see  
Steering into headlights and your gone
