

# One Nation Under One Eye

Fukpig

They're all in this together  
And still you think you're safe

Our leaders conspire  
They lead us to die  
One nation under one eye

I'm sick of being lied to  
And I won't take it anymore

Our leaders conspire  
They lead us to die  
Leading our rights to the slaughter  
Fuck your evil new world order
