

A trojalodyte fucking throwback  
With the charm of a fucking slug

You're just a fucking neanderthal  
When all is said and done  
Did you stop evolving at the point  
That you got your thumbs?

Doused in blood and vomit  
Just a violent unevolved cunt

So do you really think that  
The human race has reached its peak  
And we've done all that it's possible to do  
There's a constant evolution of the mind and the soul  
But it's wasted on the likes of you
