

## Against The Grain

Full Blown Chaos

Do you know me?  
Tell me what you believe  
How dare you judge me  
I am more than what you see

I made this life  
And everyone a friend  
Still you turned on me  
Shown true colors

You never listen  
You hear the sound  
You never listen  
And fuck the words

Never ending every things become a trend  
I hope you had your fill  
'Cause this is where the bleeding ends  
Slowly dying

Were worked down to the bone  
Go against the grain  
Or die alone  
I wont change for you

'Cause you will never change  
I live my life everyday  
You just fail and fade away  
Dare you judge

Turn on me  
You just fail  
Fade away
