

## Burning Age

Full Blown Chaos

Another day of breathing  
Acrid and thick, I inhale  
Feel it burn inside  
When will the smoke clear

Seems like its been forever  
Seen only death and disease  
With every breath I'm dying  
See my fate in from of me

There will be no dawn for man  
Rotting minds have faded  
Damned us to years of flame  
Use to fear a life in hell

Now I live it everyday  
There will be no dawn for man  
Humanity has collapsed  
This is the burning age

Never cease until we are ash  
There will be no dawn for man  
Another day of breathing  
Every wake brings more decay

There will be no dawn for man  
This is the burning age  
Another day of breathing  
Every wake brings more decay

There will be no dawn for man  
This is the burning age
