

## Suffer In Silence

## Full Blown Chaos

No innocent ignorance  
Constant impetuous  
Commit to nothing  
What have you become

Remain oblivious, this world cold and calloused  
Chew you up, spit you out  
And never bat an eye  
Cant you see I'm reaching out to you

Pick up the pieces, I am torn in two  
No innocent ignorance  
Constant impetuous  
Remain oblivious

Your heart, cold and calloused  
Cant you see I'm reaching out to you  
Just a friend, trying to pull you through  
Never wanted

Patience thinning  
All that I have  
You turn it away  
Fallen on deaf ears

You suffer in silence  
All that I have  
You turn it away  
Fallen on deaf ears

You suffer in silence  
Deny my hand  
You never learn  
You are forsaken

All that I have  
Turn it away  
Fall on deaf ears  
Suffer in silence
