

Relax and hunger for hesitation
Remember the times that cut so deep
The bridge is burning in shallow water
The bride is taking too much sleep

Unwind sunshine and meet your maker
Define the line of blood and truth
Unwind sunshine and make your martyr
This time life depends on you
Madtrain return of depression

He's an icy lonely strung out creep
His days are turning into nightmares
The dark horse eats god
Lonely sheep
Unwind sunshine and meet your maker
Define the line of blood and truth

Unwind sunshine and make your martyr
This time life depends on you
I know it, I see it
It's right in front of my face, my face
I know it, I see it

It's right in front of my face, my face
I know it, I see it
It's right in front of my face, my face
I know it, I see it
It's right in front of my face

Unwind sunshine and meet your maker
Define the line of blood and truth
Unwind sunshine and make your martyr
This time life depends on you
On you, on you, on you
