

# Monster

Full Devil Jacket

I take this place  
Where do I belong in your life today?  
Make a little space  
Too much emotion to throw away

You made a monster out of me  
Doubt fed emotion  
Colored gray  
Colored gray

Too much today  
All this frustration on my brain  
No, I can't stay  
She'll throw me right outside, I'll turn away

You made a monster out of me  
Doubt fed emotion  
Colored gray  
My skin hangs loose

My face grows long  
You can't come in, no, you don't belong  
All your right don't make me wrong  
I can't see through, no, this need's too strong in you

I will confide in truth  
I will live a lie  
I will live a lie  
You made a monster out of me

Doubt fed emotion  
Colored gray  
Razor blades on my skin  
And hearts filled with mace

And paper for my face  
You made a monster out of me  
Doubt fed emotion  
Colored gray

Razor blades on my skin  
And hearts filled with mace  
And paper for my face
