

6 Feet Under

Full Diesel

I joined the game
unable to win
played 'till the end
'cause I know I have nothing to lose

Goddamn I'm so depressed
fucked up and so obsessed
I know it's all I get
underground that's where I rest

No time to do these things that are right
I've played my part now it's time to die

Six feet under
here is where I rest
at ten miles high exists the reason for my hate
six feet under
here is where I rest
ending my days as I knock over my king in chess

My hand on the bible
to block the cross
gave no salvation
'cause I know it has nothing to give
