

Divine Streak

Full Diesel

My life is based on a fragile system
It's insecure so easy to break

There's no place for redemption
Gives me shocks it isn't fake

You think I don't really know
Nothing's stable it is a dead end road
It'll be in sanity to claim
This is life there's no room for the pain

There's no place for redemption
Gives me shocks it isn't fake

R: There is no possibility
To win this reality
What may come may come
Nothing can be undone
In this circle of dreams
It subdues my divine streak

You think I don't really know
Nothing's stable it is dead end road
It'll be in sanity to claim
This is life there's no room for the pain

There's no room
There's no room for the
There's no room for the pain

R: There is no possibility
To win this reality
What may come may come
Nothing can't be undone
In this circle of dreams
It subdues my divine streak
