

# Unchain Me

Full Diesel

Two faces,  
One betrayal  
Dark places  
They're all the same  
I don't mind it's a waste of my time

'cause at the end  
all is too late

This ain't a song  
For those who are free  
It's just a song for me  
To be free

R: Unchain me  
Release me  
From these pictures of my history  
Unchain me  
Release me  
set me free from this grief

Plan the lane your life should be  
Pave the road with history  
Know your past  
know the fee

You have to pay for your deeds  
'cause at the end  
You have to pay for your deeds

This ain't a song  
For those who are free  
It's just a song for me  
To be free

R: Unchain me  
Release me  
From these pictures of my history  
Unchain me  
Release me  
Set me free

From this grief

Look at the burning city behind  
My wings were not meant to fly

R: Unchain me  
Release me  
From these pictures of my history

from this grief
