

## Got Our Love

Fun Lovin' Criminals

It seems like every single day, I hear all of  
my friends say, "you just too damn crazy".  
And it seems like every dawn that breaks, I  
reflect on what it takes, sometimes I just  
can't see past this.

We got our love, but I don't know what to do  
with it. We got our love, but I don't know  
what to do with it.

It seems like every single time, when I hear  
that Patsy Cline, I think of when we were  
younger. Now I see people and their lies,  
through frosted glass and swollen eyes,  
can't you just get over yourself and call.

We got our love, but I don't know what to do  
with it. We got our love, but I don't know  
what to do with it.

I never want to be like that...
