

Depths of Misery

Funebrarum

Inhale the stench of the dead
A putrid moaning cadaver
Mangled in the pits of darkness
Screams through the gates of death

A journey through a blackened abyss
Streams of blood and carnage
Holocausts' fire incinerates
Where flesh perpetually burns

Glowing winds of trepidation
Rise from the tomb
Expelled from mortal realms
The supreme sacrifice

Dragged into the underworld
The caverns deep below
Inhale the reek of darkness
Streaming from the graves
