

## Dormant Hallucination

### Funebrarum

Skies open deep red  
Over a woeful cemetery  
The mausoleum's carnal altar  
Entranced into the dark

Penetrate the tomb  
Her apparition awaits  
Constrain the lustful spectre  
Into corporeal fornication

Obscured in lifeless pleasure  
The sanctum swathed in secretions  
Carnality and blood  
Seep from cold marble

Macabre evil spirit  
Release me from this life  
Through a dark, dripping ossuary  
Fog absorbs flesh and dissipates

Lost in a baleful aftermath  
My subconscious now entangled  
In a damned ghost's purgatory  
The paradise of flesh
