

Incineration of Mortal Flesh

Funerarium

Disinter the ancient coffin
Through the blackened earth
Of an unconsecrated grave
Deceased for aeons unknown

The power of darkness
In blasphemy...

Pry away the timeworn lid
To reveal the decaying remains
Awakened below the crescent moon...

The power of darkness
In blasphemy...

Pry away the timeworn lid
To reveal the decaying remains
Where the sleep of Morbid Dreams hath

Plague your soul
For endless forgotten eves
Unbound entity
Condemned to live again
In spiritual exile
Commence the ritual

Suffocating in the dark
Putrid hands ripping you apart
Incinerate alive as you perpetually descend
Redeemed with the wisdom of darkness

Incineration of Mortal Flesh

Commence the ritual
Exordium of blasphemous rites
Thus invoked - as the flames rise

The knowledge of infinite darkness absorbed
The circle unbroken
Transforming in the infernal fire
Peer in to the eyes of the ageless one
