hey you, understand
quit now, start again
time to shut down automatism
time to let it fly
when I get up, late AM
I know, what I want
something more than a sketchy life
I know I want it all

and I won't compromise, the big little white lie!

## chorus:

Freedom, Freedom,
Freedom and Liberty
Freedom, Freedom,
Freedom and Liberty

one chance, one road you better look for your own, the gift of life is a wasted present if you don't succeed! Think, act, choose wisely, don't hurt anybody; that's the only groundrule people, one law for the FREE!

and don't you compromise, the big little white lie!

chorus

chorus

when you got no hope and a broken soul, and blind ambition took your heart, get up, hey, step into Freedom and Liberty!"
