

## Party On

## Funeral Dress

another lonely night at home  
track of time completely gone  
still the end is very near  
i'm gonna get right out of here

things won't seem so dumb  
when i stop feeling numb  
i'm marching with one goal  
all for one and beer for all

out of my way, i am going to the party  
no i won't stay at home  
out of my way cause i'm going to the party  
i'm gonna party all night long

party on, party on, party on,  
party on, party on, party on,  
beer and whiskey all night long,  
party on, party on, party on

when the sun starts a new day  
all the vampires hide away  
unstable and shaking hands,  
i'm gonna make a stand

just listen and hear me out  
don't do it out of pride  
drugs, girls or lemonade,  
beer is my partydate

out of my way, i am going to the party  
no i won't stay at home  
out of my way cause i'm going to the party  
i'm gonna party all night long

party on (4x)
