Funeral for a Friend

Forget the letter, just sleep sound tonight Pull back the covers without a fight But as we dance by emergency light

I fail to swallow my tongue And I'm still here bleeding So pull this switch and see my body twitch

Oh, as we dance on this memory A light left blinking on it's own And my blood is flowing

Down through this machine In hope and desire In hope I expire

Turn off this machine
'Cuz this is the only thing that's keeping me alive
Turn off this machine
'Cuz this is the only thing that's keeping me alive

So pull this switch and see my body twitch Oh, as we dance on this memory Despair has devoured me whole

A seed won't grow from this soul This pull won't cure my disease Can't you kill this bleeding heart?

Turn off this machine
'Cuz this is the only thing that's keeping me alive
Turn off this machine
'Cuz this is the only thing that's keeping me alive

Please nurse, my batteries are running low Please nurse, oh, oh, I think I'm running low

Left here swallowed by this fear
That you will always keep me here
To close your eyes and pray for this to go away

'Cuz I'm not angry, tired or sore More of a man than I was before Is this the 'cause I'm looking for?

I plead, forgive me
'Cuz I'm no martyr
Is this the 'cause I'm looking for?

I plead, forgive me
'Cuz I'm no martyr
Is this the 'cause I'm looking for?

'Cuz I'm not angry, tired or sore More of a man than I was before Is this the 'cause I'm looking for? I plead, forgive me
'Cuz I'm no martyr
You're not the 'cause I'm looking for

I plead, forgive me
'Cuz I'm no martyr
And you're not the 'cause I'm looking for
