

## Recovery

## Funeral for a Friend

Scared to open up these eyes  
See just what's inside  
This tree is dead and cold  
This house is not a home  
Help me now  
I'm dying here all alone

This is not a new game  
So don't think that you know

Casually I confide  
Awake and paralyzed  
Forever in one word  
Forever is the longest time  
It's the only cure  
I'm not sure I'll survive

This is not a new game  
So don't think that you know

Can you see these blood shot eyes?  
And can you see...

That my strength is failing  
And I can't go on this way  
And this heart's not beating  
It just doesn't seem the same  
And my strength is failing  
And I can't go on this way  
Can't go on this way

Promise me, promise me  
Promise me, you will not ever leave  
Promise me, you will not ever leave  
Promise me, you will not ever leave  
Promise me, you will not ever leave  
You will not ever leave

And my strength is failing  
And I can't go on this way  
And this heart's not beating  
It just doesn't seem the same  
It doesn't seem the same  
It just doesn't seem the same
