

Adventures Misadventures

Funeral Suits

We all know that lie
We all know that lie

We all know that lie
Buried in the ground
Dug beneath our hearts
To surface in the sounds

And we all know that lie
I want to say that I've been followed
Lay at night when it gets dark
First the shakes and then the horror
As the dagger strikes my heart

We all know that lie
And we all know that lie
And we all know that lie

We all know that lie
Buried in the ground
Dug beneath our hearts
To surface in the sounds

And we all know that lie
I want to find a love less hollow
I want to say that I can't die
I want to say I feel no sorrow
But this is all a lie

And we all know that lie
And we all know that lie
We all know that lie

We are all as one
We are all as one
We are all as one

We all know that lie
We all know that lie
We all know that lie
