Funeral Suits

Help
Is on the way
Spy your victim
Touch the distance

Oh, health
Has fallen prey
For the beast, a lowly whisper
Did you think they'd hear you say?

Love
Through telescopes
Chariot gate release
The keeper

Chains
Surround the hope
Every leaf, abandoned splinters
Did you think they'd hear you say?

You be the eyes
I'll be the whisper
This cave's got lies
Health of helps' a treasure

You be the eyes
I'll be the whisper
This cave's got lies
Health of helps' a treasure

You be the eyes
I'll be the whisper
This cave's got lies
Health of helps' a treasure

You be the eyes
I'll be the whisper
This cave's got lies
Health of helps' a treasure
