

# You Scared the Lovin' Outta Me

Funkadelic

You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
I thought I knew all there is to do  
I stuck out my chest and dove into a love  
With ego in charge, I charged into what seemed  
To be the quickest way into manhood  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
Eat this for me and from a tiny tree  
She plucked some fruit and placed it on her navel  
I was no freak, but I was gettin' weak  
I chose the quickest way into her womanhood  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
Eat this for me and from a tiny tree  
She plucked a fruit and placed it on her navel  
I was no freak, but I was gettin' weak  
I chose the quickest way into her womanhood  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me  
You scared me, baby  
You scared the love right outta me
