

The Land Of Milk And Honey

Funker Vogt

Walking through a dirty rubbish-dump
They used to call it green wood
Breathing cold, polluted air
Acid rain devours trees bare
A tramp dies in an alley
A young man rapes a girl
Children are born without arms
Someone dies with Leukaemia

Come on, enjoy the world!
Try to ignore!
Close your eyes, don't say a word!
Try it more!

Stop talking about Diana's curler
Ignoring is our murder
Why can't man feel the fear?
Our system is out of gear
