

The state within

Funker Vogt

They can fake everything
To prove that you are guilty
They can erase your life
Steal your whole identity

There's not much you can do
Resistance is impossible
In the end they take your life
And no-one knows you have been there

It's the state within - the state within
It's the state within - the state within

Watch out for the shadowmen
The guardians of the state
They might be your neighbour
The ruler of your fate

A few good men will resist
And fight in the underground
Give up their families
Just for the things they believe

It's the state within - the state within
It's the state within - the state within

Watch out for the shadowmen
The guardians of the state
They might be your neighbour
The ruler of your fate
