

# Hide Nothing

## Further Seems Forever

We live and we learn and crash and we burn and we're gone  
We take what we know and we learn as we go and we run

Run until that day  
We can see who we are  
Have the final say  
We can be who we are  
As love lights the way to the last day  
And no one can take it away

Run and hide (run and hide)  
Don't hide at all (don't hide at all)  
Change is coming, no it's nothing personal  
Live our lives (live our lives)  
Not hide it all (not hide it all)  
Change is coming, no its nothing personal

We live and we learn and crash and we burn and were gone  
(We live and we learn and crash and we burn and were gone)  
We take what we know and we learn as we go and we run

Run until that day  
We can see who we are  
Have the final say  
We can be who we are  
As love lights the way to the last day  
And no one can take it away

Run and hide (run and hide)  
Don't hide at all (don't hide at all)  
Change is coming, no it's nothing personal  
Live our lives (live our lives)  
Not hide it all (not hide it all)  
Change is coming, no its nothing personal

We live and we learn and crash and we burn and were gone  
(We live and we learn and crash and we burn and were gone)  
We take what we know and we learn as we go and we run  
(We take what we know and we learn as we go and we run)

We live and we learn and crash and we burn and were gone  
(We live and we learn and crash and we burn and were gone)  
We reap what we sow and we come and we go when were young
