

Janie

Further Seems Forever

The times were heard
From a paint build front porch
And it ran a chord in the cold wind

And those girls next door
Might've heard it before
If they did then it never was mentioned

Janie I'm sorry but summer is over
And darling I'm trying to get back before it's too long
My eyes are opened up
So Janie I'm sorry but summer is over and done

Drag leaves burnt the colors have turned
The smoke from it turned as it floated
Over the roofs like string cut balloons
A drifting and autumn parade

Janie I'm sorry but summer is over
And darling I'm trying to get back before it's too long
My eyes are opened up
So Janie I'm sorry but summer is over and done

Have been too long to tell you
That I've gone too long without you
But summer's over
Over and done
Over and

Janie I'm sorry but summer is over
And darling I'm trying to get back before it's too long
My eyes are opened up
So Janie I'm sorry but summer is over and done
Summer is over and
Janie I'm sorry but summer is over and done
Over and done
