

Lead the Way

Further Seems Forever

I'm not above asking
Asking for your help
I'm not above asking
I know myself
For you to find a way

I'm not above trying to understand
I'm not above trying to take your hand
I'm not above (I'm not above)
I'm not above trying to understand
I'm not above trying to take your hand
I'm not above (I'm not above)

You come closer to me
Breaking through to you
And closer, hiding all

You know me better than I do
It's better if you lead the way

You know me better than I do
It's better if you lead the way

You know me better than I do
It's better if you lead the way

You know me better than I do
It's better if you lead the way
