

Light Up Ahead

Further Seems Forever

Take this heart of darkness
I give it up
And all the emptiness, I
You fill it up

The times that I feel nothing
You bring enough
And so I can live for something
You lift me up

And all these bad dreams
I wake up to the light
And when I can't see
I wake up to your eyes
Wake me up

There's a light up ahead
There's a light up ahead
There's a light up ahead
There's a light up ahead

It gets so complicated
If you live enough
Turn into what you hated
You're breaking up

The times I feel like nothing
You bring enough
So I can live for something
You lift me up

And all these bad dreams
I wake up to the light
And when I can't see
I wake up to your eyes
Wake me up

There's a light up ahead
There's a light up ahead
There's a light up ahead
There's a light up ahead
