

Don't Slow Down

Fury In The Slaughterhouse

96 degrees the sun is burning
"Ra" is smiling when the whip comes down
The caravan of stones creeps through the desert
The valley of Kings is filled with sound, is filled with sound
Hurry up come on pull boys come on never stop
Hurry up the pharao's dying
The pyramid grows higher and higher
The treasure chamber is already filled
The pharao is ill no time to waste
The architects pray before they get killed, before they get killed
Hurry up come on pull boys come on never stop
Hurry up the pharao's dying
Don't slow down
Tons of stones for the honour of the crown
Don't slow down
Pull that stone in the name of the crown
86 degrees in the city of Rome
The pope decides he needs a new dome
So suffer boys in the name of god
And empty your pockets for his new home for his new dome
Hurry up come on pull boys come on never stop
Hurry up the pharao's dying
Don't slow down
Tons of stones for the honour of the crown
Don't slow down
Pull that stone in the name of the crown
