

## Don't Slow Down

### Fury In The Slaughterhouse

96 degrees the sun is burning  
"Ra" is smiling when the whip comes down  
The caravan of stones creeps through the desert  
The valley of Kings is filled with sound, is filled with sound  
Hurry up come on pull boys come on never stop  
Hurry up the pharao's dying  
The pyramid grows higher and higher  
The treasure chamber is already filled  
The pharao is ill no time to waste  
The architects pray before they get killed, before they get killed  
Hurry up come on pull boys come on never stop  
Hurry up the pharao's dying  
Don't slow down  
Tons of stones for the honour of the crown  
Don't slow down  
Pull that stone in the name of the crown  
86 degrees in the city of Rome  
The pope decides he needs a new dome  
So suffer boys in the name of god  
And empty your pockets for his new home for his new dome  
Hurry up come on pull boys come on never stop  
Hurry up the pharao's dying  
Don't slow down  
Tons of stones for the honour of the crown  
Don't slow down  
Pull that stone in the name of the crown
