Baby you know
Baby you know how much I rate
Baby you know if our love never last
(Still you're my number one love)
I know that we've been through a lot in the past
(Still you're my number one love)
Even if the moon don't align with the stars
(Still you're my number one love)
Even if you move on like racing cars
(Still you're my number one love)

(My Love)

Baby you done made it to the top of my charts (My Love)
Baby you done made it

She my favourite single, my jingle
the one who keeps me going when it's tough
And when I'm feeling below on a zero
She helps me get my feelings right up
In this hell, she's an Angel that's been sent through
On a mission to deliver to me love
And everything I've been through
Has been me and you
From the smooth to the bumpy and the rough
Ee yay..
Coz You already know say I love her
Coz everything I do is proper
Even though say your mum and dad keep on telling me not to bother
See you already know say I love her
Coz everything I do is proper
and I'm just tryna let you know
Baby we'll be alright

Baby you know if our love never last
(Still you're my number one love)
I know that we've been through a lot in the past
