

## Colors In Array

### Future of Forestry

Today is more than me  
The disarray of things that I can only hold or see  
For today You shine Your light  
What You say that's more than words is spoken in your  
eyes

Colors in array  
Will show themselves before we fly away  
Colors in array

For love and for the day  
For love, for truth, for life, and all eternity  
For this song You shine Your light  
For this song that's more than words will reach into Your  
eyes

Colors in array  
Will show themselves before we fly away  
Colors in array
